 - In the Documents Repository:
 - **Requirements.pdf**
 - In the Meetings Repository:
 - the appropriate meetings document
 - Individually:
 - In the TimeSheets Repository:
 - updated **Timesheet.txt**
 - In the Contributions Repository:
 - **Requirements.txt** complete with your Contributions Documented

Project Requirements Document

This document will describe the requirements of the proposed system. It should be formatted as follows:

Document Overview

A short (2-3 paragraph) description of the contents of the document.

Project Update

Provide an update on the current state of the project, including:

- any changes made to the planned product, features, or interface
 - the reason for any changes

Project Plan Update

Provide an update on the project plan:

- note any key changes
 - new or expanded tasks
 - task assignments
 - task completions
- an update version of the software development plan
 - the chart or table create as part of the Project Plan

Risk Update

Provide an update on the risk management plan, noting any key changes

- risks added/removed
- updates on risk probabilities
- etc.

Interview Documents

Provide all resources from the interview process, including:

- interview script
- All interview questions

- Aggregated results of interview questions

Project Requirements

Provide a full description of your product requirements**, complete with at least:

- a product summary including:
 - product features
 - audience
 - business needs met
 - general interface
- full description of all:
 - interface requirements
 - functional requirements
 - non-functional requirements
- a comprehensive set of use cases and scenarios
- Use case diagram that covers all identified use cases
- Activity Diagram
 - Produce an Activity diagram that covers all identified Use Cases
- a description of feature set the team plans to implement in time for the final presentation April 10th
- ***requirements should be based on information gathered from users of the system*

Team Presentation

In lab, each team will give a presentation (10-15 minutes, including questions) summarizing the information in the document described above. This presentation will be evaluated by the audience members, and feedback on both the project requirements and the presentation will subsequently be provided to the project team.

Marking Scheme

This assignment is worth 15% of the overall project mark. Your mark will be based on the group's contribution, weighted based on your peer-evaluated contributions to this deliverable.
